

passageWay conveyor

Equipment Data Sheet

Model:	EPC-300
Frame Style:	Extruded aluminum frame with painted vanity panels
Description:	Provides a 600mm walkway on an “as needed” basis through the production line and is normally closed, operating as a transfer conveyor.

Standard Features:

- PCB Size: 50 x 50 – 530 x 460
- Programmable Logic Controller
- Fixed speed : 50Hz-174mm/sec, 60Hz-221mm/sec
- Manually open the passageway
- Easy-lift pivot gate design with buffers to cushion closing action
- Hand crank width adjusting
- Left to right travel, front rail fixed
- Conforms to SMEMA Spec. 1.2

Options:

- Automatically adjust to open the passageway : EGC-500
- ESD grounding receptacles
- Touch screen of operating panel
- Auto or Semi-auto width adjust
- Speed Controller
- 3 color Tower lamp with audible alarm
- Safety cover

Facilities Requirements:

Electrical:	AC220V 50-60Hz 1 Phase
Conveyor height	900mm+/-30mm / 950mm+/-30mm
Air:	5 kgf/cm ²
Power consumption	Max. 200W, 1A

Manufactured Exclusively by EUNIL
